

To: A-One Appointed Agents

Subject Line: New Incentive Program from A-One: Dash Cam Reimbursement Program

A-One is happy to announce that with effect from April 11, 2022, we are implementing a “Dash Cam Reimbursement” program. Under this program, A-One will reimburse up to \$200.00 per camera for newly purchased Dash Cams for new and renewal policies with effective dates of April 11, 2022 or later.

A-One will reimburse one time per insured, for one camera per covered unit. To receive the reimbursement, the following must be submitted to A-One:

- Insured must provide a copy of receipt dated April 1, 2022 or later
- Insured must provide photos of the camera installed in the covered unit

Once A-One reimburses for a Dash Cam for a covered unit, it is expected that video will be submitted to A-One in the event of a claim. If video is not provided, or the camera was not functioning at the time of the accident, A-One reserves the right to recuperate the \$200.00 from the insured.

As a reminder, A-One’s “Dash Cam Video” program remains active! A-One will waive the insured’s deductible (if any), if the insured provides A-One a copy of a Dash Cam Video as part of the claim investigation process. To be eligible for this deductible waiver, the following conditions must be met:

- Insured must provide the video to A-One claims handlers promptly, preferably as part of the claim notification
- The video must show the accident in question
- All views must be provided if the insured is using a multi-view camera (i.e. forward facing and in-cab views)

Upon receipt of the video(s) and verifying the video shows the accident in question, A-One will waive the insured’s deductible.

Thank you.
