

DASH CAM INCENTIVE PROGRAM

Are you an A-One insured that has been in an accident and have Dash Cam Video of the event?

If so, A-One will waive your deductible (if any), if you provide us with a copy of the Dash Cam Video as part of the claim investigation process.

To be eligible for this deductible waiver, you must provide the video to A-One claims handlers promptly, preferably as part of the claim notification. Additionally, the video must show the accident in question, and all views must be provided if using a multi-view camera (i.e., forward facing and in-cab views)

Upon receipt of the video(s) and verifying the video shows the accident in question, A-One will waive the your deductible for the event in question.
